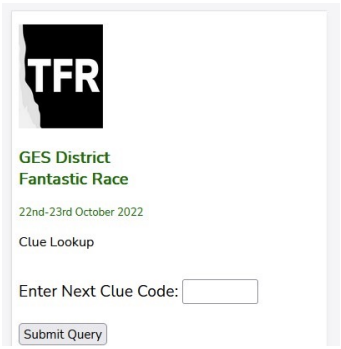
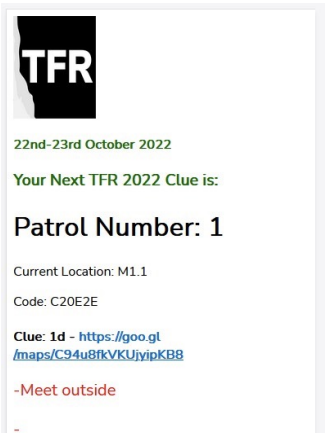
THE FANTASTIC RACE
POWERED BY 5TH/6TH CENTRAL MOORABBIN SCOUT GROUP

HOW TO USE GOOGLE MAPS AND MYKI

1. Scan the QR Code on your patrol pack, type in your given code on the website, then press Submit Query.



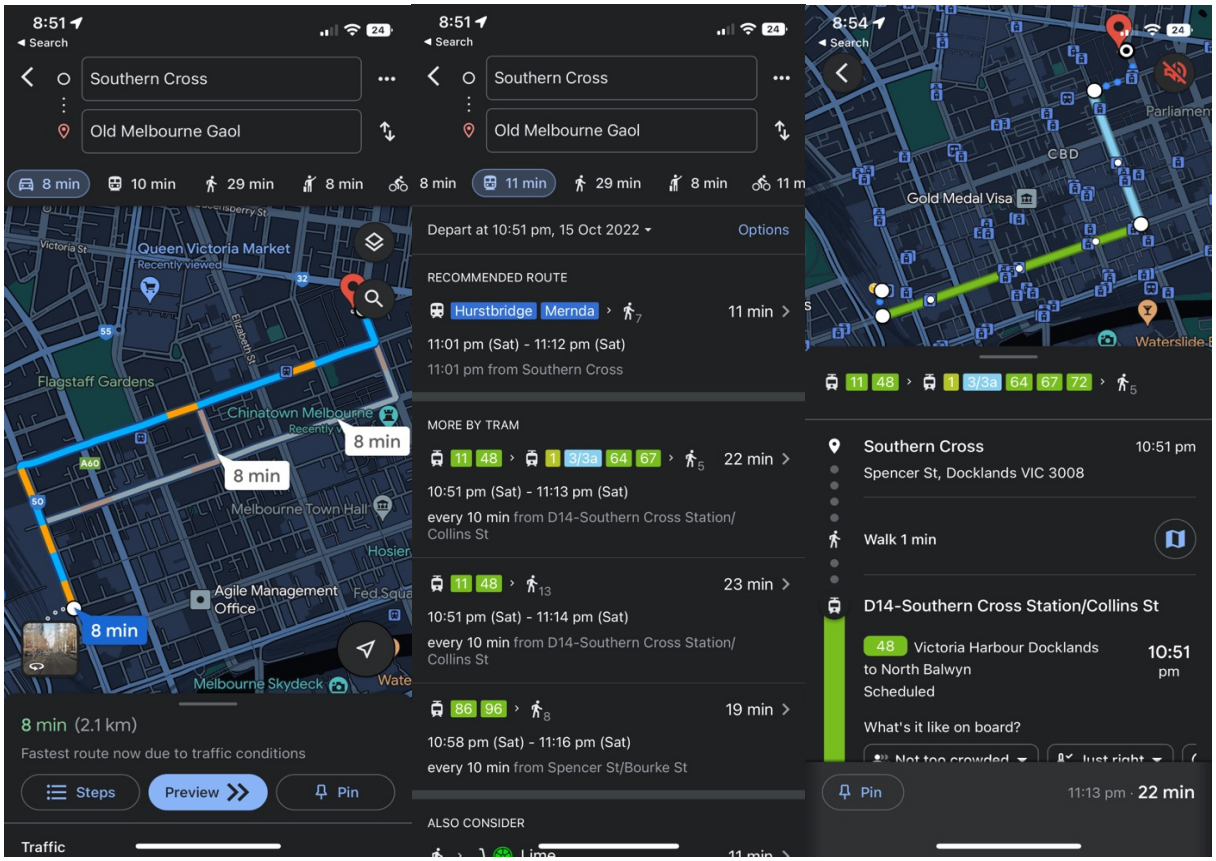


2. You'll be presented with a page that looks similar to image two. Before continuing, **CONFIRM THAT YOUR PATROL NUMBER MATCHES THE PATROL NUMBER SHOWN ON THE SCREEN.** If it doesn't match, ask for the clue again. You'll also be given your current location code, and a google maps link to your next activity.

3. Clicking this link, youll be directed to the google maps app or website, where it will give you directions from your current location to the next activity.

4. Make sure you select PUBLIC TRANSPORT or WALKING methods, depending on which is faster. Using public transport, especially trains and trams, will get you to your activity faster and means you can get more out of your day.

5. Selecting a public transport route will give you step by step directions on how to get to your next activity. Here it will show you the departing station, the route or line to board, and the direction to travel. It'll also show how many stops to travel and what stop or station to get off.



Y O U **MUST**

ENSURE THAT THERE IS SUFFICIENT FUNDS ON YOUR MYKI BEFORE STARTING YOUR DAY. You can check your Myki balance on one of the hooded myki readers seen here, or the large myki top-up machines, both are located at most

train stations. Your balance wil also be shown when you touch on and off. Your Myki will be used to travel throughout Melbourne on Saturday. Your Myki will not be needed on Sunday.

MYKI IS SIMPLE. JUST REMEMBER TO TOUCH ON, AND TOUCH OFF.

Myki readers look similar to the ones pictured to the right. Modern readers will require you touch your myki on the screen itself, where as older versions will have an area below the screen to touch on.

TRAINS: You'll need to touch on and off at the platform. You'll need to touch on and off as you pass a myki reader, even if you're only changing platforms. Bigger stations will have gates with myki readers attached.

TRAMS/BUS: Trams have myki readers on the tram carriage/bus. You'll still need to touch on and off as you enter and leave each tram.
